Additional information

Degree Overview

The BA Hons Sociology explores issues such as inequality and social change, gender and sexuality, ethnicity, crime and deviance, and social justice. The course provides a wide range of options, including the chance to widen your perspective by studying a language. You'll also have the option to undertake a dissertation or work placement. Upon graduation you'll understand how to apply critical thought, research, communication, and teamwork to what you do. These transferable skills are sought after by many employers. Graduates of Sociology include youth and community work, welfare provision, and positions within charitable organisations and local and national government.

Study Reasons

- This course enables students to specialise in the study of sociology while incorporating courses to allow you to build your degree around your interests and career aspirations
- Through this degree you'll develop a range of intellectual and practical transferable skills that provide a strong foundation for future employment in a range of careers in the sociological workplace
