

Edinburgh Napier University

Computer Science (AI)

Study details

Course type: Bachelor's degree

Degree: BSc (Hons) Computer Science (AI)

Study mode: Full time

Duration: 36 Month

Cost of study

Cost : 19 340 GBP

Reg. fee : 210 GBP

Scholarship :

Insurance : N/A GBP

Intake/s

Apr/Jan/Sep

Requirements

English language requirements

IELTS Academic

- Overall 6.0
- Writing 6.0
- Listening 5.5
- Reading 5.5
- Speaking 5.5

We also accept other English language qualifications. (TOEFEL iBT, Trinity ISE, LANGUAGECERT Academic..)

Don't meet the English language requirements?

Pre-sessional English for international students. If you hold a conditional offer and have not yet met the English entry requirements for a degree course at the University, we can help you with our pre-sessional English courses.

Study for 4 years (start at Level 1)

The essential subjects are Mathematics + another science (Information Technology, Chemistry, Biology, Human Biology, Physics, or Computing Science) - A-level, GCE CCC

Study for 3 years (start at Level 2)

The essential subjects are Mathematics + another Science (Information Technology, Chemistry, Biology, Human Biology, Physics, Psychology or Computing Science) - A-level, GCE ABB

IB (International Baccalaureate) diploma

Study for 4 years (start at Level 1) - 28 points, including 5, 5, 4 at higher level

Essential subject: Mathematics at Higher Level

Study for 3 years (start at Level 2) - 32 points, including 6, 5, 5 at higher level

Essential subject: Mathematics at Higher Level

Accommodation

Key Features & Amenities

- Fully-furnished bedrooms
- Laundry facility with washers and dryers available
- Super-fast internet and wifi throughout
- Large social space, games area and study spaces
- Communal kitchen space for students
- 24/7 security

Two main accommodation locations for International Students:

Gorgie: 543 Gorgie Road Edinburgh EH11 3AR

Westfield: 24 Westfield Road Edinburgh EH11 2QB

Speciality

Pathways Available: International Stage One, International Stage Two

Additional information

Degree Overview

The BSc Computer Science (Artificial Intelligence) degree is designed to provide opportunities for students to develop core skills in Computer Science and specialist skills in areas such as Natural Language Processing and Deep Learning, among others. The modules will be taught by world

leading scientists in specialist facilities, which contain high-speed computers with all essential software. Our course will teach you the fundamentals of artificial intelligence that will propel you into employment after university.

During this course, you will develop a critical understanding of Computer Science and computational thinking, with a focus in your final year on the use of Artificial Intelligence. In your first year, you will develop software design and engineering skills which will later be used to allow you to develop software algorithms and make use of Artificial Intelligence based tools and concepts.

In addition, you will develop a critical understanding of problem solving using a range of analysis techniques to design computations solutions to a wide range of complex problems.

In your final year, you will have the opportunity to study a range of Artificial Intelligence specialised modules, which are delivered by staff who are internationally recognised experts.
