- Biomedical Science

Additional information

Key Information

The International Year Zero (IYZ) pathway programme will help you develop the academic English skills and subject knowledge required to begin your undergraduate studies at the University of Greenwich.

Your first year is taught at UGIC and once successfully completed, you will continue studying the remaining stages of your degree directly with the University of Greenwich.

During the IYZ you will:

- Study at the University campus
- Have full access to the university amenities and student benefits

Our science pathway course has been designed to prepare you with core scientific knowledge and skills.

During this course, you will explore a range of subject matter from biology and chemistry to pharmaceutical sciences and forensic science.

Students who study science at the University of Greenwich benefit from the university's outstanding teaching, innovative research and links with industry. For example, Forensic Science at the university is rated number one for student satisfaction in London.
