Speciality

There aren't any pathways available

Additional information

Degree Overview

There is a strong focus on ethical and professional communication and behaviours as well as on developing high-level communication skills with clients and as part of collaborative multi-disciplinary practice. Graduates from this program will be eligible for registration as a physiotherapist with the Australian Health Practitioner Registration Agency (AHPRA).

Are you the person who wants to make a career helping others be the best they can be? Do you dream of joining a profession that bases its decisions on scientific evidence and makes exciting therapeutic advancements daily?

At Notre Dame, we explore every avenue of physiotherapy practice in your on-campus studies and approximately 1000 hours of clinical practice (practicum).

You will develop clinical assessment and intervention skills in laboratories, simulated learning environments, and exposure to patients in physiotherapy practices, hospitals or community health settings in urban and rural locations.

The program also strongly focuses on evidence-based and reflective practice ensuring graduates will be well prepared to meet the challenge of current and future health provision across the many clinical

and non-clinical areas in which Physiotherapists are employed.

Study Reasons

- Graduate job-ready with industry-specific skills and knowledge
- Benefit from a unique, personalised approach to education and pastoral care
- Lecturers are industry professionals and leaders in their field
