

University of Oregon

Anthropology

Study details

Course type: Bachelor's degree

Degree: Anthropology BA/BS

Study mode: Full mode

Duration: 48 Month

Cost of study

Cost : 44 598 USD

Reg. fee : N/A USD

Scholarship :

Insurance : N/A USD

Intake/s

Sep

Requirements

- English entry - TOEFL 88+ (IELTS 7.0)
- GPA entry - 3.0 GPA or equivalent

Accommodation

- Shared bedroom
- Shared bathroom
- Shared kitchen
- High-speed internet connectivity
- Rooms that come with basic furniture (bed, mattress, desk, chair, dresser and closet)
- All bills included
- Access to student lounges with TVs and games for entertainment
- On-site laundry facilities
- Secure door entry and security cameras for your safety

Speciality

If your English and / or academic level is lower than what you see above, please contact us. We will do everything we can to find you a great path to university.

Additional information

Degree Overview

This degree is offered by the College of Arts and Sciences, the University of Oregon's intellectual hub that serves about two-thirds of its students with nearly 800 faculty members covering the humanities, natural sciences, and social sciences.

About the major

At the UO's Department of Anthropology, you can learn about various cultures and populations, dig up fossils, study gorillas, hunt for ancient relics, and more. Pursue your specific interests through our three anthropological subfields: cultural anthropology, biological anthropology, and archaeology.

You will be taught by working anthropologists who study societies from the past and present in West Africa, East Africa, Latin America, North America, East Asia, South Asia, Southeast Asia, Oceania, and the Caribbean. Learn about the human species from ecological and evolutionary perspectives, and gain a deeper understanding of human biological variation and our relation to other animals. You can participate in field schools that travel across the world digging for artifacts, and go abroad to study international cultures.

A little more info

- Specialize in one of our subfields—cultural anthropology, archaeology, or biological anthropology—or combine them for an interdisciplinary approach such as biocultural anthropology or bioarchaeology.
- Earn internships and employment opportunities with the UO Museum of Natural and Cultural History, and work on research projects with professors and graduate students.
- Analyze and document artifacts from actual project sites in the Americas, Pacific Islands, East Asia, Southeast Asia, West Africa, and more.
- Gain experience in cutting edge molecular analyses of DNA, hormones, and isotopes.
- Explore connections between bones and behavior to better understand human evolutionary biology and primate ecology.
