Additional information

Programme description

The master's degree program in the specialization "Geopolitics" is an ideal option for you if you are interested in the dynamic interactions between world powers.

For careers in international relations, government service or multinational corporations, our specialisation prepares individuals to navigate the intricacies of geopolitical interactions, contributing to successful international cooperation and negotiations.

The curriculum covers a wide range of topics, such as:

- global geopolitics: you will understand the leading trends in international politics, the analysis of the strategic interests of states, and the impact of geographic and cultural factors on international relations,
- international relations theory: you will learn key theories on international relations,
- diplomacy and international negotiations: you will learn about diplomatic techniques, negotiation processes and communication skills,
- international security: you will analyze the main threats to global security, including terrorism, armed conflict, cyber security and energy security,
- intercultural communication: you will deepen your knowledge of cultural differences and their impact on communication between nations and learn how to communicate effectively in an international environment.

Career Perspectives

- geopolitical analyst
- foreign policy advisor
- diplomat
- global security consultant
- political risk analyst
- scientific researcher

Programme benefits

Why choose our specialisation?

- experienced academics and professional diplomats: our academic team consists of experts in the fields of international relations, geopolitics and foreign policy, who have extensive practical

- experience as diplomats and advisors in institutions such as the Polish Ministry of Foreign Affairs,
