#### Intake/s

Sep

#### Requirements

### Admission Requirements

- **HIGH SCHOOL/ BACHELOR DIPLOMA AND TRANSCRIPT**  
Or equivalent occupational diploma officially translated to English or German
- **CURRICULUM VITAE (CV)** (Dated & Signed)
- **COPY OF PASSPORT** (SCANNED)
- **MOTIVATION LETTER** (MIN 500 WORDS)
- **PORTFOLIO**  
The following are supplementary requirements from the individual degree programmes.

#### ***Film & Motion Design***

5 – 8 work samples in which the moving image is the focus – be it filmed or animated, digital or analogue. All kinds of picture series (storyboards, flipbooks) and also other creative projects are welcome. Videos as MP4, Vimeo or YouTube links.

#### ***Communication Design / Visual Communication***

Submit 8-12 work samples showcasing your strengths in visual communication, such as drawings, sketchbooks, collages, photographs, moving images, interactive projects, websites, and other creative endeavors. Include a brief reflective text for each work. Sketchbooks are also

welcome.

## ***Digital Product Management / Design & Management Studies / UX/UI Design***

A portfolio with samples of work is welcome but not required.

## ***Game Design***

5 – 10 work samples made by you: Concept sketches, storyboards, collages, renderings and other design projects are welcome. Additionally either a digital game (.exe as ZIP) or a written game concept (1 page).

## ***Illustration***

15 samples of work – in addition to illustrations and drawings, a sketchbook and other projects that demonstrate interest in the subject area are also welcome. We also like to see themed series and concept sketches.

## ***Photography & New Media***

2-3 series of photos and fewer individual images (all in all at least 20 images). The photographic projects can be supplemented by other media such as videos, drawings and graphic design.

## Speciality

## Spotlight Module: "Introduction to Sports Anatomy and Sports Medicine "

In the "Introduction to Sports Anatomy and Sports Medicine" module, students gain foundational knowledge of **anatomical structures** and **physiological functions** relevant to sports performance. They learn about the muscle and bone systems, the spine's structure and function, and the nervous system's essential elements. Additionally, students **study the cardiovascular system**, its response to physical activity, and the importance of regular exercise for physical health. They also explore haematological peculiarities and the respiratory system's functions. Through this module, students develop a solid understanding of sports anatomy's role in **optimising performance and preventing injuries**.

## Additional information

## Become an expert in international elite sport

Gain the skills and knowledge to train top and junior athletes in preparation for major international competitions like the Olympic Games, World and European Championships and more by gaining a **bachelor's degree in Sports Science: Training & Performance** at UE.

Whether in the NFL or at the Olympic Games, athletes are idolised by the public. Sport plays an important role in society, the **BA Sports Science: Training & Performance** degree at UE provides the opportunity to be a part of the movement. Choose to study sports science with a focus on training and performance at the Seilersee Sports Campus in Iserlohn and take your first steps in the sports industry.

## Career Perspectives

The Career Development Centre of University of Europe for Applied Sciences (UE) serves as an interface between the university and commercial enterprises. There are two elements to its service:

1. **JobTeaser** is the new career portal for students. The Career Development Centre guides students along their path from enrollment to employment, and supports them with their internship and career plans.
2. The Career Development Centre comes up with and implements initiatives with the aim of generating interest among commercial enterprises in the university and its students, and provides individual services to strengthen contacts with HR decision-makers. The Career Development Centre

offers different channels of communication between enterprises, students, and alumni.
