International Foundation Certificate | International Year One | International Year Two | International Year Zero

Additional information

Degree Overview

This highly practical course has been designed with the future in mind. Taking into consideration growing disciplines such as artificial intelligence, you will study several defined business areas that reflect the ever-changing needs of the market which include: Digital Transformation and Innovation in Business and Ethical and Responsible Leadership.

Employability is at the heart of our Business Management course. Alongside the opportunity of a year-long placement, you will also work on integrated case studies, which will allow you to hear from and gain insight into global brands such as Apple and Amazon. You will step away from the confines of your textbooks and apply your theoretical knowledge to practical business simulations set by executives from these global businesses.

You will receive an excellent grounding in all aspects of business management, incorporating knowledge from a range of disciplines such as accounting, economics, finance, human resource management, marketing, and sustainability.

A Business Management degree at DMU can open up an exciting career path in a wide range of specialist areas such as project consulting, project management, and digital transformation. Previous graduates from this degree have gone on to successful careers in world-renowned organisations, including Amazon, Goldman Sachs, and Caterpillar.

Study Reasons

Gain real-time insights on the state of global companies, in the past students have worked with executives from companies such as Amazon and Apple, through integrated case studies and business simulations.

You'll be provided with an excellent grounding in all aspects of business which will give you the ability to critically evaluate organisations in terms of their key areas of business management, structures, functions, and processes.

Benefit from our guest lecture series run by executives from popular blue-chip companies, in previous years we've had the likes of Amazon, Apple and contestants from the apprentice.
