Course type: Master's degree

Degree: MSc Product Design

Study mode: Full time

Duration: 12 Month

Cost of study

Cost : 23 000 GBP

Reg. fee : 200 GBP

Scholarship :

Insurance : N/A GBP

Intake/s

Jan/Sep

Requirements

Your degree should be in a creative or technical discipline (e.g. product design, industrial design, textile design, jewellery design, engineering, architecture, computer science etc.), although applicants with other qualifications or relevant professional experience will also be considered.

You will need to upload a portfolio of design/technology work. We consider all creative work in the context of design and portfolios will almost always include some (but not necessarily all) of the following:

- contextual research
- Visual mapping techniques
- sketching
- drawing
- CAD rendering
- model making
- physical/digital prototypes
- finished artefacts and any other design related work

English language requirements

IELTS Academic

- Overall 6.5
- Writing 6.0
- Listening 5.5
- Reading 5.5

- Speaking 6.0

We also accept other English language qualifications. (TOEFEL iBT, Trinity ISE, LANGUAGECERT Academic..)

Don't meet the English language requirements?

Pre-sessional English for international students. If you hold a conditional offer and have not yet met the English entry requirements for a degree course at the University, we can help you with our pre-sessional English courses.

Accommodation

Key Features & Amenities

- Self-catered
- Single occupancy
- Access to laundry facilities
- En-suite (with shower and toilet)
- Inclusive of Utility bills
- In easy reach of bicycle storage
- Fully connected to superfast wired and wifi internet
- Connection to Freeview or Freesat

All rooms are single occupancy with private bathrooms (en suite), equipped with superfast WiFi. Rooms cost approximately £140-£70 per week.

Also available are laundry facilities, bike storage, a shared kitchen and weekend parking.

Speciality

Pathways Available: Pre-Master's

15 months : 3 months pathway + 1 year degree

International College Dundee

If you do not meet our academic grade requirements for your chosen course, we can offer you an alternative route to begin your studies. Our international incorporated degrees will develop your subject knowledge, academic English and university level study skills.

Tuition fees for International students will increase by no more than 5% per year for the length of your course.

Additional information

Degree Overview

The course is an ideal launch pad if you want to enter the exciting world of creative technology. You'll examine the ways digital technologies are changing the way we live our lives, exploring big data and looking at the relationship between products, the internet and the cloud.

You'll learn how to develop socially relevant design responses to address these real world issues, challenging and creating conversations about the ways in which people and society interact with technologies.

This course is research-driven and interdisciplinary and you will be taught modules in both design and technology. You will collaborate with research scholars, and groups within the University, as well as with external organisations and creative practitioners.

Through this, you'll develop new perspectives and frameworks on problem-solving, prototyping, design thinking, and making.
