Requirements

- applicants should normally have a BPS-accredited undergraduate degree or a conversion degree in Psychology, with at least 2(ii) or equivalent. Applicants with degrees of an equivalent standard in a closely-related discipline, including qualified health professionals (e.g. clinical psychologists, psychiatrists, occupational therapists) who have relevant clinical experience, will also be considered.
- IELTS: 6.0 (with no element below 5.5) is required.

Accommodation

- Individual single study bedrooms.
- Single sex only, alcohol-free and quiet accommodation available.
- Choice of en-suite private bathroom or shared bathrooms.
- Fully equipped self-catered facilities, allowing you to prepare your own meals.
- Option to purchase meals on-campus at a variety of cafes/restaurants.
- All Halls within walking distance of the campus.
- Senior Wardens on duty, plus, a team of friendly student 'Mentors' and 24/7 Security Staff (24 hours a day, 7 days a week).
- All-inclusive rent includes internet, heating, electricity, water bills, all maintenance and contents insurance.
- Rent also includes gym membership and Campus Life events programme. Campus Life events like sports events, movie nights, BBQ's, cooking classes, quiz nights, exciting trips etc to help students get the most from their time in Halls.

Speciality

This course is offered full time as well as part-time.

Pre-master's (Psychology)

Additional information

Degree Overview

Students interested in the MSc in Clinical and Health Psychology will be introduced to the theory and knowledge that underpins effective practice in clinical psychology, will explore this in relation to a range of conditions, will gain an understanding of the range of research methods used by clinical psychologists, and will conduct their own research project in a relevant area.

Study Reasons

- Graduates in psychology or closely related disciplines who are keen to pursue research in the area of clinical psychology. The MSc course is accredited as providing appropriate research training for those wishing to progress to a PhD or to employment in a research post.
- Graduates in psychology who are aiming for a career in clinical psychology and who have already gained relevant work experience. Completing the MSc course provides evidence of academic and research skills, which is valuable when making applications for clinical training.
