## Accommodation

Our campuses are designed to provide a stimulating experience and to prepare for a rich and exciting career.

With more than 81 nationalities represented on our campus, you enjoy an international experience at BSB and you are enriched by this cultural diversity.

**Totally renovated**, our campus is located in the heart of the historic center of Dijon. It offers students a **exceptional quality of life**: moderate rents, walking access to places of student life and to the TGV station in 10 minutes...

Follow Sam to discover our campus, which is renowned as one of the most beautiful campuses in France. But the best thing is to come in person for your oral exams to discover it: love at first sight guaranteed!

## Speciality

**English, France**

## Additional information

The strategic industries of sustainability and social responsibility are changing rapidly, marked by the emergence of new environmental, social and economic challenges. Faced with the acceleration of climate crises and the growing demand for ethical practices, businesses need to adopt innovative and sustainable strategies.

This evolving sector requires **leaders capable of reconciling innovation and responsibility in their strategic decisions.**

The MSc **Sustainable Strategy Management and Environmental Change** meets these new expectations by offering students the skills to **support long-term ecological transitions and build sustainable business models.** Entirely in English and enriched by interactions with experts, it connects students to a stimulating professional network, allowing them to immerse themselves in a constantly evolving field and to anticipate the needs of tomorrow's businesses.
