To apply, you must fill in an online application form. To learn more about you, your experiences, your interests in BSB and your expectations, you will be asked to **record a 30-minute one-way video interview** that will take place on a specific platform for our admissions team to view and assess later.

Accommodation

Our campuses are designed to provide a stimulating experience and to prepare for a rich and exciting career.

With more than 81 nationalities represented on our campus, you enjoy an international experience at BSB and you are enriched by this cultural diversity.

Totally renovated, our campus is located in the heart of the historic center of Dijon. It offers students a **exceptional quality of life**: moderate rents, walking access to places of student life and to the TGV station in 10 minutes...

Follow Sam to discover our campus, which is renowned as one of the most beautiful campuses in France. But the best thing is to come in person for your oral exams to discover it: love at first sight guaranteed!

Speciality

English

Additional information

An academic background

The MSc Data Science & Organisational Behaviour includes an academic part made up of **Theoretical courses** And of a **experimental research work**. BSB provides its students with an Experimental Laboratory in Social Sciences and Behavior Analysis (LESSAC).

By learning the **data control**, students understand how Data can **change decision-making in business** and cause, at a high level of expertise, a **behavioural change**. The specificity of the MSc Data Science & Organisational Behaviour is therefore based on a synergy between **rigorous understanding** Of the intersection between the **data management** And the **mastery of behavioral tools**

Practical training

This practical training is supported by company visits, including that of **PwC Luxembourg**, training partner, and **intensive workshops**.

The program offers a **immersion in the professional world** across several **seminars** as well as **meetings with professionals in the sector**. Students can put their theoretical knowledge into practice during**concrete case studies** On **real scenarios confided by partner companie**
