#### About:

This course offers a range of interdisciplinary perspectives from business, technology, social enterprises and new venture creation. It offers practical research and work-based projects in all areas shaping the creative economy and the fourth industrial revolution – including the role of creative interventions in technology-enabled business transformation, change management and design leadership. Extended Masters courses have all been designed to support international students with a minimum of IELTS 5.5 (5.0) on their journey to postgraduate study.

## Degree overview:

**The Extended Masters** The Extended Masters courses have all been designed to support international students with a minimum of IELTS 5.5 (5.0) on their journey to postgraduate study. Students will receive ongoing support through their transition to the UK. Our Extended Masters courses are aimed at international students looking to:

- Enhance their existing skillset
- Progress on to master's-level study
- Improve their English Language skills

## 10 reasons to study this master's in design management course:

- Gain highly desirable skills in business design, modelling and organisational transformation
- Gain masters level skills in change management, leadership, evidence-based approaches to innovation and measuring impact
- Gain highly desirable skills in systems thinking
- Learn about bleeding-edge technologies that are shaping the next iteration of business transformation
- Develop your knowledge of sustainability, social innovation and corporate responsibility
- Gain business and entrepreneurial skills that will accelerate your career
- Experience a 'real world' research-led and practice-based approach to management education
- Learn about 'holistic' people-centred organisations and their success factors
- Improve your professional network through meeting people with similar interests and different skillsets
- Be part of a forward-thinking creative community bringing together design, technology, business and social transformation.

How you will study This course is comprised of five semesters. In the first two semesters, English language constitutes 35% of the course, and students successfully completing the first two semesters of the course are expected to be able to demonstrate English language skill at the CEFR B2 level (IELTS 6.5). Upon successful completion of the first two semesters, students will move onto the core progression course modules.

## Study reasons:

- The course is taught by industry experts
- Offers opportunities for real-world project experience through partnerships with leading companies
