Additional information

About:

Skilled digital photographers are in demand across various industries to capture a moment in time and bring messages and products to life. With access to gold-standard equipment, this photography

degree works with your creative talent, exploring lighting and art direction to create evocative and powerful images.

Degree overview:

Nothing tells a story like a powerful image. Digital photography is one of the most dynamic mediums within the creative industries; it is a dominant force in shaping and defining contemporary society. This digital photography course in London, UK, is the destination for budding contemporary photographers who wish to push the boundaries of a powerful medium. Accredited by the Association of Photographers (AOP) and the Royal Photographic Society (RPS), you will learn to decipher creative briefs, develop your own photographic style and prepare collections for exhibitions and competitions. This industry-focused photography degree provides an education in the broader areas of digital photographic practice and will instil an understanding of the rapidly changing principles and methods that underpin new and emerging creative commercial practice. You will use practical skills, knowledge and critical application of digital photography, helping you to explore the creative potential of your camera. Through a mix of practice and theory-based learning, you will be taught to think like a photographer and explore how images are created, shared, distributed and sold. This future-focused BA Hons photography degree course from Ravensbourne University London is designed to combine practical skills with a knowledge of the critical application of digital photography. You will explore the creative potential of the camera and the theories and movements that drive change. You will be encouraged to develop your own distinctive portfolio to showcase a high level of technical skill, whilst understanding the theory of photography, as well as seek opportunities for placements at top London agencies and photographers. You will also be encouraged to work collaboratively with other students across the college and different disciplines.

Study reasons:

- Accredited by the Association of Photographers (AOP) and the Royal Photographic Society (RPS)
- Nurture a diverse skillset across a range of digital photography sub-disciplines
- Industry-focused and exception industry connections
