Requirements

Academic requirements

- Minimum 2:2 honours degree, or equivalent, from a recognised university in any subject
- Bachelor Degree (4 Years)
- GPA of around 2.75/4.0 for courses requiring a UK 2:2 equivalent
- CGPA 3.2/4 or 4.0/5 for courses requiring a 2:1 equivalent

English language requirements

- IELTS 6.5 (or above) with no single element below 5.5 or equivalent.

If you don't meet the academic requirements

Applicants with non-standard prior learning and or relevant work experience and training are encouraged to apply. A CV (curriculum vitae) made up of prior work experience and training would need to be submitted for consideration by our faculty alongside the standard application.

Candidates coming through the non-standard route, such as through relevant work experience or old qualifications, will be invited to discuss their application.

All applications will be considered on an individual basis.

- Access to online resources, including 24/ 7 Library with over 400,000 e-books and 50,000 electronic journals.

Additional information

Overview

The MSc in Global Logistics Operations and Supply Chain Management has been designed to enable you to acquire an in-depth understanding of the major areas of knowledge and philosophical approaches that underpin the concept of the Global Supply Process.

The programme philosophy is to develop this knowledge and understanding of the specialist area of supply chain management, whilst placing it firmly within an organisational context. The key specialist modules are resultant from both academic and professional influence as to strategic change factors within the global supply process.

Key facts

- Develop your expertise in this dynamic sector where individuals are in high demand
- Accredited by the Chartered Institute of Purchasing and Supply (CIPS)
- Upon completion of your programme, you will be eligible for the QA Professional Pathways programmes which will enable you to further develop your skills with one of the UK's largest providers of IT and project management training
- The MSc in Global Logistics Operations and Supply Chain Management with Advanced Practice has been designed to enable you to acquire an in-depth understanding of the major areas of knowledge and philosophical approaches that underpin the concept of the Global Supply Process
- Newcastle Business School is accredited by the prestigious Association to Advance Collegiate Schools of Business (AACSB). According to AACSB, "Approximately 6% of the world's schools offering business degree education have achieved AACSB accreditation, demonstrating a commitment to high-quality,

rigorous standards, innovation, and continuous process improvement. Read more about our 'double' AACSB Accreditation

What will I study?

The MSc Global Logistics Operations and Supply Chain Management programme provides an intensive logistics, operations and supply chain management education for students entering at Level 7 from an undergraduate degree of any discipline including business and management.

The curriculum is informed by the latest research and aligned to the practical and employability skills required for a successful career across a wide range of sectors and businesses and its applications are relevant to careers in both the manufacturing and service sectors.

An experiential, or 'real-world', approach to learning will ensure you are exposed to current professional practice, and the modules will equip you with the skills to contribute effectively to global businesses. Given the continuous change in the logistics, operations and supply chain management field, you will be encouraged to innovate and apply emerging models, theories, technologies and ideas to solve business problems specific to this suite of related disciplines. With the substantive content of the programme being discipline-specific (i.e. logistics, operations and supply chain management),

The specialist GLOSCM modules cover strategic procurement, sustainable supply chains, improving the supply chain, and strategic partnerships. The course culminates with a master's dissertation.

This programme is accredited by the Chartered Institute of Purchasing and Supply (CIPS) and the Chartered Institute of Logistics and Transport (CILT).

How will I be taught and assessed?

- Teaching is delivered through lectures, seminars and workshops totalling between **11-13 hours per week**
- You're expected to engage in independent study, around **34 hours per week**
- **Assessment** is based on exams and coursework, including presentations.
- Taught by **experienced lecturers and academics** who use their industry experience to demonstrate how theories translate into real-life situations.
- **Technology-enhanced** learning is embedded throughout the course to guide your preparation for seminars and independent research
- Benefit from **weekly academic support sessions** designed to build your ability and confidence as an academic learner
- You will be assigned a **guidance tutor** at induction who you will meet with regularly during your studies

Careers and further study

Graduates can expect to secure roles in areas such as Operations Management, Materials Management, Purchasing and Quality Management. Typical roles include:

- Supplier Quality Manager
- Transport Consultant
- Distribution Services Manager
- E-commerce Operations Manager

- Freight Account Manager
- Logistics Project Manager

This programme is also available as **MSc Global Logistics, Operations and Supply Chain Management with Advanced Practice** which includes either an internship or group consultancy project.

Upon successfully completing your course, you may undertake further professional development and training through Professional Pathways programmes. These are offered to our graduates for free, from our partner, QA. Find out more about Professional Pathways and your eligibility.
