Syracuse University

Earth Sciences

Study details

Course type: Bachelor's degree
Degree: B.A. Earth Sciences
Study mode: Full time
Duration: 36 Month

Cost of study

Cost : 63 710 USD
Reg. fee : N/A USD
Scolarship :
Insurance : N/A USD

Intake/s

Aug/Jan/May

Requirements

If you have completed academic work outside the U.S., you must provide official academic credentials as well as English translations of the documents. If only one document is available, we will accept notarized or certified copies of the original document. If translations are needed, it is your responsibility to have the credentials translated by a reputable translation and evaluation service. Syracuse University will not provide translations for you. A key to the marking system or grading scale should also be included if it is not indicated on the transcript.

- **First-year Students:** Attending and graduating from in-person secondary schools based in the United States for at least three full academic years (Grades 10-12).
- **Transfer Students:** Have completed at least 24 credits in person at a post-secondary institution in the United States. Students must have earned a cumulative GPA of 3.0 or higher, excluding ESL curriculum.

English Language Requiements

- **IELTS is not required. as part of the admission process all students will take the VEPT test administered by interlearn**
- **VEPT costs - (50$)**

Pre-Sessional (20 weeks) 37 - 40

Pre-Sessional (12 weeks) 41 - 45

Pre-Sessional (6 weeks) 46 - 50

Inernational Year One - 51+

Accommodation

The residential internet, cable access and service fee is a mandatory fee for all who sign a Syracuse University housing contract.

Shuttle Escorts

The Parking and Transportation Services safety escort shuttle operates nightly from 8 p.m. to 6 a.m. throughout the year.

It is easy to make yourself at home in one of our 21 residence halls, with accommodations to meet diverse needs. With approximately 53% of students living on campus, new friends are easy to find as you settle into your home away from home.

Residence Halls

West Campus

Boland Hall, Brewster Hall, Brockway Hall, Lawrinson Hall and Sadler Hall

Mount Olympus

Day Hall, Flint Hall, Shaw Hall, Oren Lyons Hall

East Campus

Booth Hall, DellPlain Hall, Ernie Davis Hall, Haven Hall, Kimmel Hall, Marion Hall, Oren Lyons Hall, Walnut Hall, Washington Arms and Watson Hall

South Campus

Skyhalls I, II and III

Speciality

International Year One in Available (47 200)

Please note that students completing the British curriculum are not eligible to apply upon completion of the IGCSE/GCSE; we require at least one additional year of education. Additionally, we do not accept the BTEC for admission at this time.

Progressing students into Syracuse University receive the following merit awards for each subsequent year of enrollment based on the cumulative GPA earned upon the completion of the 30 credit hours:
• A GPA between 3.25 and 3.49 is $10,000 per year
• A GPA between 3.5 and 3.74 is $15,000 per year
• A GPA greater than 3.75 is $20,000 per year

Degree Overview

The Earth Sciences provide insights into some of humanity’s deepest questions. How was the planet Earth, our lifeboat in space, formed? What are the processes that have shaped the Earth – its surface and internal structure? How has life, of which humanity is a part, evolved? Why are there earthquakes, volcanoes, mountain chains, continents, and oceans? How has the surface of the Earth and its environments changed through time? On a practical level, the study of Earth Sciences provides a basis for understanding natural hazards, assessing Earth’s climate variability and global change, predicting the migration of man-made pollutants, and exploring for the energy and mineral resources upon which society depends.

Study Reasons

Customize your curriculum through a flexible program that will allow you to double major and pursue academic interests outside the field of Earth sciences.

Participate in student research that unlocks access to state-of-the-art laboratories and computing facilities for sophisticated analytical and numerical study of Earth systems.

Participate in an active, thriving undergraduate geosciences club, UGoGeo, to build camaraderie with fellow students and connect students with faculty.
