Speciality

International College Dundee

If you do not meet our academic grade requirements for your chosen course, we can offer you an alternative route to begin your studies. Our international incorporated degrees will develop your subject knowledge, academic English and university level study skills.

Pathways Available - International Stage One

Tuition fees for International students will increase by no more than 5% per year for the length of your course.

Additional information

Degree Overview

Philosophy explores our existence using critical thinking and argument. If you find yourself thinking about life's big issues and questions, philosophy could be for you.

We specialise in continental (European) philosophy and teach key texts from the European tradition. For this course, we also encourage you to study European-based modules from other subjects such as history, languages, international relations, politics, or geography.

We help you look at how philosophy is important to real-world concerns and contemporary issues by:

exploring films and artwork

discussing important scientific and technological developments

debating controversial ethical issues

looking at how texts written three hundred years ago can be relevant to political situations today

At Levels 1 and 2 you will receive a grounding in ancient and modern philosophy and be introduced to fundamental ideas concerning ethics, epistemology (the nature of knowledge), and metaphysics (the nature of reality).

You then specialise at Levels 3 and 4 by drawing on a range of philosophy modules taught by lecturers engaging in interdisciplinary research.

You will study existentialism in relation to contemporary culture, technology, and film, and topics in aesthetics and the philosophy of art. You will also be encouraged to make links between philosophy and other subjects, such as politics, literature, film, the environment, psychology, and computer science.
