Speciality

International College Dundee

If you do not meet our academic grade requirements for your chosen course, we can offer you an alternative route to begin your studies. Our international incorporated degrees will develop your subject knowledge, academic English and university level study skills.

Pathways Available - International Stage One

Tuition fees for International students will increase by no more than 5% per year for the length of your course.

Additional information

Degree Overview

Improve your Spanish skills while also discovering the history of the Highlands and Islands and early Scottish politics, researching original manuscripts from the 1600s, and critically analysing Scottish involvement in the transatlantic slave trade. You can also explore the relationship between Scottish and British nationalisms from 1707 to the present day.

Our emphasis is very much on 'doing history'. You'll use primary sources from the very beginning of your studies, and analyse various kinds of historical evidence, including written and oral materials, maps, visual images, feature films, art, and music.

Before specialising at Levels 3 and 4, you'll study Scottish history alongside British, Irish, American, European, and global history from the early modern period through to the present day.

You will reflect critically on key debates in history, looking at how they have developed over time, and how they have shaped our understanding of the world. You'll also learn how historians 'make' history, and evaluate their roles in today's public life, media, and the heritage industry.

You'll benefit from our close links with the University's Archives, Records Management, and Museum Services, and be able to examine many original documents first-hand.

You'll also study one Spanish module per semester in each year, either as a beginner or at intensive level if you have previously studied the language at Higher/A-Level.

Study Reasons

When you graduate, you will have the ability to think creatively and independently, ask incisive questions, articulate your ideas, and solve complex problems. These are all attributes highly sought after by employers.
