**Additional information** 

# **Degree Overview**

In this course you will examine how international businesses start, operate, adapt, and grow. You will learn how to put business management techniques and models into practice and understand their limitations.

Business leaders and specialists in different areas will share the challenges they face in their organisations. You will have the opportunity to consult on a live project.

In addition, you will be able to do a short placement with a local firm to gain practical experience. Our team also offer an extensive list of summer placements.

As well as studying traditional business management subjects, we offer opportunities to explore alternative, but increasingly important areas, such as digital and business innovation, consumer experience in a digital world, economics of an unequal world, and business start-up.

### **Study Reasons**

Opportunities to explore alternative, but increasingly important areas, such as digital and business innovation, consumer experience in a digital world, economics of an unequal world, and business start-up

Our Business Society works closely with the School of Business to link you with the business world, through an annual series of workshops, guest talks, and career support.
