Additional information

About:

Students of our award-winning Graphic Design degree will develop a critical eye for design and a knowledge of different design approaches and creative problem solving techniques. You will develop

both the vision and the resilience to succeed in the creative industries.

Degree overview:

This degree in Graphic Design allows you to work cross-media and explore the subject from a number of critical perspectives, challenging the different roles graphic designers can take. We value individualism and encourage concept-driven work, showing a clear understanding of design problems as well as the production of visual languages. During this BA Hons Graphic Design degree in London, UK, you will explore novel ways of design thinking, including format, context, materials and medium. You will sharpen your creative skills and reimagine methods of communication through numerous visual platforms and environments, such as typography, editorial design, data visualisation and much more. With access to cutting-edge facilities, you'll work with industry practitioners to explore creative design thinking across a range of briefs. In dedicated studio spaces, you will study a blend of practice and theory-based learning strategies, including lectures, workshops, tutorials and live projects. Senior lecturers and visiting professionals will offer invaluable industry insight, as well as support your future career choices. Is it time you unlocked your creative potential?

Study reasons:

- Taught by staff who are current design professionals
- Innovative, forward-thinking and industry-focused
- Great career prospects with graphic designers in high demand
