Cost : 35 430 USD

Reg. fee : 85 USD

Scholarship :

Insurance : 2 765 USD

Intake/s

Jan/May/Aug

Requirements

Academic requirements

First-year students must:

- Have a 3.00 grade point average (GPA) (a "B" or better where "A"=4.00) from a secondary school. Some ASU programs may have higher admission or English proficiency requirements and may consider a minimum ACT or SAT score.
- Must have three years of high school coursework. (If you are currently in high school, ASU needs to see 9–11 grade coursework. If you have completed high school, ASU needs to see 10–12 grade coursework.)
- Must have and present a completed high school diploma or certificate.

Conditional admission

ASU may offer conditional undergraduate admission to international applicants to an on-campus program who meet the academic (aptitude) requirements but who are not proficient in English. This offer of conditional admission will give you time to improve your English proficiency before you start classes at ASU. Your conditional admission offer is good for up to three semesters, during which time you must meet one of these requirements to begin your ASU experience.

Competency requirements

International students who completed high school outside the U.S. are required to meet the following competency requirements:

- Math: four years (algebra I, geometry, algebra II and one course requiring algebra II as a prerequisite).

- Laboratory science: three years total (one year each from any of the following areas are accepted: biology, chemistry, earth science, integrated sciences and physics).

Provide evidence of English language proficiency (TOEFL 61)

Accommodation

Provided by partner agencies

Additional information

Program description

The BA program in entrepreneurial leadership prepares students to start, lead and manage entrepreneurial organizations for long-term success.

This program develops entrepreneurial-minded leaders who can effectively manage the value-creation process of existing small and medium-sized businesses, as well as manage new ventures. Students, through their coursework and internship opportunities, become leaders by developing a broad entrepreneurial mindset and leadership style that enables them to seize entrepreneurial opportunities. They can also develop and nurture those entrepreneurial opportunities within their organizations through the effective communication, team building, critical thinking and problem-solving skills learned in this program.

Concurrent program options

Students pursuing concurrent degrees (also known as a “double major”) earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Entrepreneurship and Innovation, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program.

Global opportunities

Global experience

As globalization continues to impact the way business functions, study abroad programs provide students with valuable skills that employers are looking for, including communication and interpersonal skills, as well as flexibility, motivation and a global perspective on business applications worldwide.

Business students can participate in Global Education programs nearly anywhere in the world and gain valuable internship experience in many global business hubs, such as Australia, Germany, England, Singapore, China and the United Arab Emirates.

Career opportunities

Graduates possess a broad foundation in business and a focus on starting, leading and managing entrepreneurial organizations. This indicates multiple career paths, including working in entrepreneurial-minded roles in existing organizations as well as starting or joining new ventures and small businesses of all types.
