

## Arizona State University (Tempe campus)

### Theory and Composition (Theory), BMUS

#### Study details

**Course type:** Bachelor's degree

**Degree:** Theory and Composition (Theory), BMUS FAMUSTTBM

**Study mode:** Full time

**Duration:** 48 Month

#### Cost of study

**Cost :** 35 430 USD

**Reg. fee :** 85 USD

**Scholarship :**

**Insurance :** 2 765 USD

#### Intake/s

Jan/May/Aug

#### Requirements

##### Academic requirements

First-year students must:

- Have a 3.00 grade point average (GPA) (a "B" or better where "A"=4.00) from a secondary school. Some ASU programs may have higher admission or English proficiency requirements and may consider a minimum ACT or SAT score.
- Must have three years of high school coursework. (If you are currently in high school, ASU needs to see 9–11 grade coursework. If you have completed high school, ASU needs to see 10–12 grade coursework.)
- Must have and present a completed high school diploma or certificate.

##### Conditional admission

ASU may offer conditional undergraduate admission to international applicants to an on-campus program who meet the academic (aptitude) requirements but who are not proficient in English. This offer of conditional admission will give you time to improve your English proficiency before you start classes at ASU. Your conditional admission offer is good for up to three semesters, during which time you must meet one of these requirements to begin your ASU experience.

##### Competency requirements

International students who completed high school outside the U.S. are required to meet the following competency requirements:

- Math: four years (algebra I, geometry, algebra II and one course requiring algebra II as a prerequisite).

- Laboratory science: three years total (one year each from any of the following areas are accepted: biology, chemistry, earth science, integrated sciences and physics).

## **Provide evidence of English language proficiency (TOEFL 61)**

### **Additional requirements:**

**Important:** Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music, Dance and Theatre application. Admission to the School of Music, Dance and Theatre is based on an audition. Auditions take place in November (spring admission) and in January and February (fall admission) of each year.

Admission to the music program is highly selective and based on the audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, Dance and Theatre, the applicant's major will be changed to music. If a student is admitted to ASU but not to the School of Music, Dance and Theatre or misses the audition deadline, the student will remain a music audition major and must successfully pass the music audition milestone in the first semester to gain admission into the program.

**Application Deadlines:** Students should review the complete music deadline information.

**Spring admission:** The deadline to apply for admission to this program is October 15.

**Fall admission:** The deadline to apply for admission to this program is January 5.

### **Accommodation**

Provided by partner agencies

### **Speciality**

### **Transfer admission requirements:**

**Transfer applicants:** Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

**Application deadlines:** Students should review the complete music deadline information.

**Spring admission:** The deadline to apply for admission to this program is October 15.

**Fall admission:** The deadline to apply for admission to this program is January 5.

### **Additional information**

## Program description

Students pursuing the BMus in theory and composition choose a concentration in either theory or composition.

Theory students take courses that explore various facets of the discipline, including tonal harmony, music perception, formal analysis, counterpoint, topics in 20th- and 21st-century music, popular music and jazz analysis.

Students work with theory faculty whose research encompasses music cognition, tonal music, timbre, embodiment, popular music and computational analysis.

## Concurrent program options

Students pursuing concurrent degrees (also known as a “double major”) earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

## Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze key creative and artistic processes from at least two musical styles and historical periods.
- Critique specific musical products within the context of a specific historic or cultural tradition.
- Conduct scholarly research on topics in music theory resulting in scholarly papers and/or presentations.

## Global opportunities

### Global experience

Music transcends language and cultural boundaries; students deepen their understanding of music theory through unique study abroad experiences. They gain an enhanced understanding of how music affects culture and how they can communicate globally through music.

With more than 300 programs around the world available to them, students can build the experience most suited to their personal goals and skill sets.

## Career opportunities

Graduates are prepared to work in various professional capacities, including:

- arranging
- arts administration
- composing
- performing in community and professional ensembles in a variety of styles and traditions
- teaching in a private studio or community program
- teaching theory and composition

- working in music-related fields such as media production, music business, publishing and marketing

Many graduates pursue a master's degree or a doctorate in music or in another professional field.
