Additional information

Management is the cornerstone of any organisation and if you want to stand out in a competitive global marketplace, it is important you earn the right qualification to do so. The master's in business management equips you with the strategic skills and cutting-edge knowledge required to break into the field and make an impact – whatever role you end up securing.

This master's degree is designed to prepare you for independent entrepreneurial activity or senior management positions with leadership responsibilities in corporations of all sizes and industries.

You will gain comprehensive knowledge of the business management field with a focus on transferable international skills. This course prioritises interdisciplinarity and there is a focus on information technology. Students also get the chance to enhance their management knowledge and application-specific specialisation skills, with a focus on real-world challenges.

Through several optional specialisations*, this programme supports various business management functional areas.

Who is this Programme For?

The MSc Business Management programme at Gisma is designed for ambitious individuals seeking to:

- **Advance their careers:** This programme is ideal for professionals looking to transition into senior management roles or leadership positions within corporations of all sizes and industries.
- **Launch entrepreneurial ventures:** If you have a passion for starting your own business, this programme equips you with the necessary skills and knowledge to navigate the complexities of international entrepreneurship.
- **Develop a global mindset:** Are you drawn to the international business arena? This programme fosters a strong understanding of international economics, strategic management, and cross-cultural

communication, preparing you to excel in the global marketplace.

- **Upskill and specialise:** Those with a business background seeking to deepen their expertise in specific areas like Marketing, Finance, or Human Resources will find the specialisation options particularly valuable.

Your Future Career

A business management degree provides the academic knowledge and skills to pursue global career opportunities and helps you develop a broad and diverse understanding of businesses. With your choice of specialism, you will have the skills and knowledge to delve into a specific field within business management. Each specialisation opens up a varied range of exciting job opportunities in the corresponding field.
