Speciality

- Please note that candidates should be at least 18 years old to be able to apply to this programme
- In this specialisation you have the opportunity to take additional online training culminating in an official IATA certificate.

Additional information

Programme description

A report by the International Air Transport Association (IATA) indicates that global demand for civilian pilots will reach more than half a million by 2044. In addition, data from the same organization says the number of airline customers is expected to reach a record 4.7 billion by 2024. Thus, the aviation sector is currently developing extremely rapidly.

The Aviation Law and Professional Pilot License course is your ticket to an international career. During your studies, you will gain knowledge in the field of law, as well as **gain access to a course that prepares you to pass the exams necessary to obtain an Air Transport Pilot License (or ATPL, which allows you to work as a pilot for airlines).**

Career Perspectives

Graduates of this field of study can take up employment as:

- airline pilot
- corporate pilot,
- flight instructor,
- aviation law specialist,
- operations manager,
- air traffic controller,
- air safety specialist,
- aviation consultant
- aviation analyst,
- employee of international institutions.

Programme benefits

Benefits of choosing the specialisation:

- classes conducted by experts - pilots and lawyers, for years working in the aviation industry, including PLL "LOT", Central Communication Port, Civil Aviation Authority, Ryanair (full list of staff below),
- flight internships carried out at ATO Goldwings Flight Academy, taking place under the supervision of experienced flight instructors employed by airlines.
- theoretical training ATPL, giving full right to pass state examinations for air transport pilot,
- access to extensive knowledge of aviation law and professional aviation terminology in English,
- work in small teaching groups,
- students and graduates from, among others. Poland, Ukraine, Turkey, Cyprus and the United States, classes are conducted exclusively in English,

- integration meetings and occasional events (e.g. international Christmas dinner), study visits to PKBWL, the Polish Parliament, the headquarters of PLL "LOT"),
- access to a superbly equipped flight simulator with installed programs Microsoft Flight Simulator, XPlane (Air Navigation Laboratory),
- meetings with experienced air transport pilots.

Additional benefits:

- opportunity to participate in meetings of the AVION Interdepartmental Aviation Law Circle,
- practical training carried out at the controls of aircraft such as. PS-28N CRUISER, Diamond DA-42, or Piper Seneca III, and on a professional simulator Alsim AL250,
- opportunity to participate in aviation conferences organized at the university,
- access to participation in industry competitions for aviation students,
- work experience in reputable institutions,
- individual consultations with the coordinator of the direction,
- rest areas available exclusively for students of the direction,
- special halls adapted for the study of aviation subjects,
- access to training materials from the Goldwings Flight Academy database of materials.
