

University of Greenwich

Computer Science (Games)

Study details

Course type: Bachelor's degree

Degree: BSc (Hons) Computer Science (Games)

Study mode: Full time

Duration: 36 Month

Cost of study

Cost : 17 500 GBP

Reg. fee : N/A GBP

Scholarship :

Insurance : N/A GBP

Intake/s

Jan/Sep

Requirements

Country specific academic qualifications:

- Achieving Specialist Diploma or Bakalavr grade Pass
- UKVI IELTS 5.5 with no less than 5.5 in each skill

Pathway international year zero is available

Additional information

Degree Overview

This specialised degree is designed to provide you a firm grasp of the science underpinning computer and software systems. Through your studies you will gain practical experience of developing systems using the latest technologies and techniques, as well as exposure to the latest trends that will shape the future of computer science. You will be able to specialise endorsement in Artificial Intelligence, Cyber Security, Data Science, Games or Networking. Modules you can study on this course include Artificial Intelligence Applications, Machine Learning, Information Visualisation and Big Data. Upon graduation, you will be equipped to study independently and to develop and adapt your skills throughout your career.

Study Reasons

- University of Greenwich is an academic partner with The Council for Registered Ethical Security Testers (CREST).
- Develop and gain theoretical and practical experience in developing computer and software systems, using the very latest technologies.
- Career opportunities exist in many areas of computing, including IT support, consultancy, internet and e-commerce applications. Graduates can expect to work as independent consultants or in teams with other computer professionals to build and support modern computing systems.
