Overview

International Experience Track | 3.5 years (7 semesters)

When it comes to optimising digital services, IT experts are always in high demand. Are you passionate about IT systems, mobile apps and AI? Are you interested in software development? Then the B.Sc. Computer Science is the right choice for you.

Our B.Sc. Computer Science programme will teach you how to handle internet, cloud and mobile technologies. You learn how to implement, configure and modify application and multimedia systems and know how to develop and successfully implement user-centred digital products and services.

You deepen your knowledge of the major principles, methods and techniques of the most important programming paradigms and the associated programming and markup languages and you are able to conceptualise, implement and evaluate software solutions for applications and systems.

Career opportunities

Choose from the following career paths:

- System developer (Software developer)
- Application developer (Software developer)
- Application administrator
- Application consultant
- IT service manager
- IT project manager
- IT consultant
