Additional information

Degree overview:

Developed in consultation with leading accounting firms, Lubin's MS in Accounting Data Analytics is highly responsive to current market demand for accountants who are trained in accounting analytics, audit analytics, and data-driven decision-making. The program satisfies the New York State 150-credit requirement for CPA licensing.

You'll work with analysis software such as Excel, IBM SPSS, SAS, R, and Python. We also provide subscriptions to proprietary databases and dashboarding tools such as MRI Plus, Simmons OneView, Compustat, Lexis Nexis, Social Explorer, Social Studio, and Qualtrics, the leading online survey platform. Learning resources include access to research databases, e-books from Books24x7,

and online learning platforms such as LinkedIn Learning. In addition, students taking analytics courses receive free access to Tableau data visualization software and DataCamp, the leading data science learning platform.

With a degree in Business and Finance, you'll learn business, economic, and financial theories, and develop commercial awareness of a variety of business functions and environments. Subjects include Business Administration, Business Management, Economics, Finance & Accounting, and Human Resources Management. A degree in this subject area could lead you to a career in:

- Logistics Manager
- Business Analyst
- Human Resources Manager
- Entrepreneur
- Accountant
- Financial Advisor
- Investment Advisor
- Financial Trader
- Banker
- Project or Product Manager
