Additional information

Course Details

Master's in Business Analytics course will provide you with an in-depth knowledge of the theories and principles of data analytics, along with the latest technologies and statistical methods, and how these can be applied to harness the power of technology for organisational success.

Your learning experience is important to us, and that's why this course is taught by experienced business professionals in workshop-style classes to ensure you can benefit from greater interaction

with your lecturer. We emphasise practical based learning and relevant real-life application, and you will apply theoretical concepts and models to real life business case studies.

This course is accredited by The Chartered Management Institute so upon successful completion of the course, you will have the option to apply for a CMI Level 7 Certificate in Strategic Management and Leadership as well as your degree. This course is also offered as an 'Accredited Degree' by the Chartered Institute of Marketing ([CiM](#)) meaning students will be able to gain industry-recognised qualifications at an accelerated pace.

Upon completion of this business Master's course, you will have the skills to understand patterns in data and how to apply these to your business decisions and link your work to business value. You will have the essential cutting-edge knowledge and skills to succeed in today's rapidly changing work environment and take your career to a senior level.

NEW MSc Business Analytics with Professional Practice

This course is offered as a 2-year full-time business master's programme. Sharing the first year of study with the 1-year MSc Business Analytics, the 2-year programme benefits from a second year of Professional Practice that is specifically aimed at fostering the employment opportunities of students.

Offering greater flexibility than a traditional Placement Year, our **Professional Practice Year** allows you to decide how to put your skills into practice. Choose between an academic dissertation, business plan, business or consultancy project, or a paid placement in industry, depending on the option that is best suited to your future career path.

Why study a Business Master's degree with us?

- **A professional Careers and Employability Service:** from day one to beyond graduation, we'll help you become more employable with support from our expert employability service and careers advisers.
- **Professional Development:** you'll have the opportunity to benefit from our 1:1 professional coaching each semester and be encouraged to submit a personal development plan (PDP) tailored to your career goals and unique skills. Your professional development is built-in to all of our course modules to ensure you continuously increase your work-place skills as you study, and we offer a whole range of professional development support.
- **Quality of teaching:** you'll work on real-life case studies, taught by business specialists with industry expertise in business analytics.
- **Help to support your tuition fees:** we have business scholarships and bursaries and can guide you on postgraduate fees and funding.
- **Amount of support:** our range of student advisors and academic coaches, support apps and student support services help our domestic and international students.
- **Flexible course format:** study full-time, part-time, on-campus or 100% online with a learning model that encourages independent and deep learning, shared modules for greater networking and clear time demands.
