Speciality

Pathway Extended Masters is available

(Please add an additional year if undertaking a placement.)

(programmes with a placement year are an additional 1,500 GBP)

Additional information

Degree Overview

The programme meets the needs of graduates who wish to enter a career in corporate finance but may not have the relevant academic background or work experience. It will provide you with a holistic understanding of finance and business strategy in a global context and you will focus on a critical understanding of financial management, investment and capital markets in theory and practice. The Roehampton MSc Global Financial Management has been designed with input from a panel of business advisors and successful business leaders to address the demand for financial strategists in global corporations and organisations. You will be equipped with a global perspective and learn the financial skills needed to make an impact in international organisations. You will, for instance, look at ways to fund investments, free up capital whilst reducing costs and optimize financial performance.

Study Reasons

- You will be equipped with the knowledge and skills to work in financial management, investment or finance-related advisory roles in international organisations, public administration or multinational firms and international operating SMEs.
- The programme will prepare you to effectively address contemporary challenges of finance and apply latest management practices in dynamic and volatile global markets. In addition to the academic programme of study, you will have the opportunity to join our Global Leadership Programme.
- This programme is dual accredited to a CMI qualification. Upon successful completion of the programme, Roehampton on-campus students, will be eligible for a CMI L7 qualification in Strategic Management and Leadership (subject to passing the required mapped CMI modules and CMI moderation).
