Speciality

Pathways Available: Pre-Master's

Sandwich course fees - charged during the placement year away from the University of Bradford for students on thick sandwich courses, or during the year in which the second placement falls for students on thin sandwich courses. Students charged at 10% of the equivalent full-time fee.

If a placement year is to be undertaken abroad and supported by University funding through the University's exchange programmes, fees will increase to 15% of standard fees to cover additional support, advice and administration costs.

Additional information

Degree Overview

This exciting course run by the Institute of Cancer Therapeutics is designed to provide you with a 'state-of-the-art' education in modern drug discovery, which meets the demand of employers in the pharmaceutical industry.

Opportunities to learn the latest innovations in drug discovery are provided, including computer-aided drug design and techniques in parallel synthesis, as well as electronic data management.

Study Reasons

The largest destination of our graduates is enrolment in PhD studies (47%) including here at Bradford, as well as King's College London, Cambridge, Manchester, Liverpool, Leeds, Newcastle, Portsmouth and Sheffield.

Career destinations of our graduates includes the NHS, Covance, Envigo, St James Hospital Leeds, Cyprotex, Chiltern, Perrigo, Dewsbury & District Hospital, Liverpool Institute of Translational

Medicine, and Public Health England.

The University is committed to helping students develop and enhance employability and this is an integral part of many programmes. Specialist support is available throughout the course from Career and Employability Services including help to find part-time work while studying, placements, vacation work and graduate vacancies. Students are encouraged to access this support at an early stage and to use the extensive resources on the Careers website.
