Gorgie: 543 Gorgie Road Edinburgh EH11 3AR

Westfield: 24 Westfield Road Edinburgh EH11 2QB

Speciality

Pathways Available: International Stage One, International Stage Two

Additional information

Degree Overview

This course will allow you to develop a critical understanding of the analysis, design, development, testing, evaluation and modification of reliable, maintainable and quality software including mobile and large scale enterprise systems.

During your studies you will develop a critical understanding of the scope of computer and network architectures from a hardware and software point of view.

In addition, you will develop a critical understanding of the gathering, storage, retrieval and analysis of information in a variety of contexts and develop a broad knowledge of a range of theoretical and methodological approaches to the design of effective interactive systems.

In your final year, you will develop a critical understanding of the human, social, organisational, economic, legal and technological factors which affect, and are affected by computer-based systems.
