Aug/Jan/May

Requirements

If you have completed academic work outside the U.S., you must provide official academic credentials as well as English translations of the documents. If only one document is available, we will accept notarized or certified copies of the original document. If translations are needed, it is your responsibility to have the credentials translated by a reputable translation and evaluation service. Syracuse University will not provide translations for you. A key to the marking system or grading scale should also be included if it is not indicated on the transcript.

- **First-year Students:** Attending and graduating from in-person secondary schools based in the United States for at least three full academic years (Grades 10-12).
- **Transfer Students:** Have completed at least 24 credits in person at a post-secondary institution in the United States. Students must have earned a cumulative GPA of 3.0 or higher, excluding ESL curriculum.

Speciality

International Year One in Available (47 200)

Please note that students completing the British curriculum are not eligible to apply upon completion of the IGCSE/GCSE; we require at least one additional year of education. Additionally, we do not accept the BTEC for admission at this time.

Progressing students into Syracuse University receive the following merit awards for each subsequent year of enrollment based on the cumulative GPA earned upon the completion of the 30 credit hours:

- A GPA between 3.25 and 3.49 is \$10,000 per year
- A GPA between 3.5 and 3.74 is \$15,000 per year
- A GPA greater than 3.75 is \$20,000 per year

Additional information

Degree Overview

In exercise science, you'll examine the physiological, mechanical, and psychological aspects of physical activity, sport, and health-related behaviors. Explore the different facets of human performance, including human physiology, anatomy, metabolic and muscular systems, and research and testing protocols. Then, use electives to jump into your unique interests—you can even minor in areas such as disability studies, sports management, nutrition, or coaching.

Study Reasons

Exercise science offers a natural sciences degree track suitable for all students interested in allied health and sport related professions.

Exercise science faculty are research leaders in their fields.

The B.S. offers experiential learning opportunities, including in faculty labs, professional internships, and study abroad.
