Speciality

There aren't any pathways available

Additional information

Degree Overview

The Bachelor of Exercise & Sport Science degree is a comprehensive nationally accredited qualification. With this degree, you can play an important role in the community by examining the implications of physical activity on public health, and sports rehabilitation. If you dream of working with elite athletes, you will be well-placed to do so.

You will choose three electives from the following: Health Sciences, Behavioural Science, Biomedical Science or Business studies.

You will gain valuable insights into your chosen career with the inclusion of industry practicum and internship placements during your study. Accredited by the national industry body, Exercise and Sports Science Australia (ESSA), graduates can work in Australia with athletes and sporting teams in the areas of exercise and sports science, and strength and conditioning.

If your special interest is in strength and conditioning, you can obtain further accreditation with a Certificate IV in Health and Fitness, so you are job-ready at the completion of your degree.

Study Reasons

- Graduate job-ready with industry-specific skills and knowledge
- Benefit from a unique, personalised approach to education and pastoral care
- Lecturers are industry professionals and leaders in their field
