Speciality

International College Dundee

If you do not meet our academic grade requirements for your chosen course, we can offer you an alternative route to begin your studies. Our international incorporated degrees will develop your subject knowledge, academic English and university level study skills.

Pathways Available - International Stage One

Tuition fees for International students will increase by no more than 5% per year for the length of your course.

Additional information

Degree Overview

The MA option allows even greater flexibility and if you have a strong interest in the arts and social science subjects. Along with your compulsory modules you can study across a broad range including History, English, Geography, Politics, or Psychology.

You'll also study one or two Spanish modules in each year, either as a beginner or at intensive level if you have previously studied the language at Higher/A-Level.

Economists examine how societies attempt to make the best use of their scarce resources, so that they can advise governments, individuals, and companies on how to improve decisions and outcomes.

Traditionally economists advise on investment, inflation, interest rates, and production. Increasingly however, economics takes a wider focus with many economists examining climate change, inequality, and improving healthcare.

Study Reasons

By adding a language to your degree, and demonstrating this particular skill set, there is no question that your career opportunities will be enhanced.

Many of our graduates have moved into financial planning, investment, insurance, pensions, and wider financial roles. We also see a number of graduates following the Chartered Accountancy route.

Graduates go on to journalism, politics, marketing, communications, business statistics, and more general business roles.
