Speciality

International College Dundee

If you do not meet our academic grade requirements for your chosen course, we can offer you an alternative route to begin your studies. Our international incorporated degrees will develop your subject knowledge, academic English and university level study skills.

Pathways Available - International Stage One

Tuition fees for International students will increase by no more than 5% per year for the length of your course.

Additional information

Degree Overview

In this course you will examine how international businesses start, operate, adapt, and grow. You will learn how to put business management techniques and models into practice and understand their limitations.

Business leaders and specialists in different areas will share the challenges they face in their organisations. You will have the opportunity to consult on a live project.

In addition, you will be able to do a short placement with a local firm to gain practical experience. Our team also offer an extensive list of summer placements.

As well as studying traditional business management subjects, we offer opportunities to explore alternative, but increasingly important areas, such as digital and business innovation, consumer experience in a digital world, economics of an unequal world, and business start-up.

Our Business Society works closely with the School of Business to link you with the business world, through an annual series of workshops, guest talks, and career support. We also have a three and a half year Business Management – accelerated BSc (Hons) available for Rest of UK and International students.

Study Reasons

Our Business Management degree first launched around 10 years ago, so we have a decade of graduates entering the job market from this degree and we can see the incredible range of jobs and companies that they work for.

After completing this course students will be prepared to go into many areas, such as: General business management Project management Corporate responsibility Sustainability Supply chain management Digital business Business analysis Innovation management Strategic management Crisis management Risk management Business consulting Business operations
