The module is focused on developing knowledge and skills in the application of management accounting techniques. It covers **modern techniques**, decision making, budgeting and standard costing, concluding with how a business should be managed and controlled.

Additional information

Guiding Financial Futures, One Strategy at a Time

An MBA specialising in Financial Management equips you with the expertise to develop forward-thinking strategies and ensure a company's financial health. This programme provides a broad spectrum of skills essential for effectively managing corporate finances. You will be trained in strategic decision-making, precise budgeting and efficient cost control techniques.

Additionally, during the master's in financial management programme, there is a special focus on developing your research and analytical abilities to comprehend, interpret and derive well-founded recommendations from complex financial data. You will learn to embed financial decisions within a broader entrepreneurial context and leverage this strategic mindset to formulate long-term visions and optimise a company's financial performance over time.

What happens after your studies?

After your studies, you will not only be an expert in business issues, but above all you will have the best qualifications and thus be decisive for the success of projects in various industries and organisations.

- **Career Opportunities:** Financial Consultant , Financial Analyst, Management Accountant.
- **Skills:** Ethical Decision-Making, Quantitative Analysis, Managerial Accounting & more
