Additional information

Degree Overview

Our MSc Web Development blends technical and creative skills into one package, teaching you software development and web design skills. Over the year, you will study software development through a comprehensive introduction to programming with Python before moving on to full-stack development with JavaScript. You will become an accomplished programmer and meet the requirements to join the web development industry. To complement this, you will also study basic and

advanced web design to ensure you graduate a well-rounded developer with a flair for digital media. Additionally, you'll learn how to store and retrieve data, as well as learn about the security aspects of IT. To finish your programme, you will undertake an end-of-year project based on your interests in the field.

Study Reasons

- Develop technical backed and creative fronted skills to understand the full web development stack

- Roehampton is ranked as the best modern university in London (Times Good University Guide 2022 and Complete University Guide 2022)

- You can study flexibly with the option to take stand-alone qualifications (PGCert/PGDip) or complete the full MSc
