

Edinburgh Napier University

Cybersecurity and Forensics

Study details

Course type: Bachelor's degree

Degree: BEng (Hons) Cybersecurity and Forensics

Study mode: Full time

Duration: 36 Month

Cost of study

Cost : 19 340 GBP

Reg. fee : 210 GBP

Scholarship :

Insurance : N/A GBP

Intake/s

Apr/Jan/Sep

Requirements

English language requirements

IELTS Academic

- Overall 6.0
- Writing 6.0
- Listening 5.5
- Reading 5.5
- Speaking 5.5

We also accept other English language qualifications. (TOEFEL iBT, Trinity ISE, LANGUAGECERT Academic..)

Don't meet the English language requirements?

Pre-sessional English for international students. If you hold a conditional offer and have not yet met the English entry requirements for a degree course at the University, we can help you with our pre-sessional English courses.

Study for 4 years (start at Level 1)

The essential subjects are Mathematics + another science (Information Technology, Chemistry, Biology, Human Biology, Physics, or Computing Science) - A-level, GCE CCC

Study for 3 years (start at Level 2)

The essential subjects are Mathematics + another Science (Information Technology, Chemistry, Biology, Human Biology, Physics, Psychology or Computing Science) - A-level, GCE ABB

IB (International Baccalaureate) diploma

Study for 4 years (start at Level 1) - 28 points, including 5, 5, 4 at higher level

Essential subject: Mathematics at Higher Level

Study for 3 years (start at Level 2) - 32 points, including 6, 5, 5 at higher level

Essential subject: Mathematics at Higher Level

Accommodation

Key Features & Amenities

- Fully-furnished bedrooms
- Laundry facility with washers and dryers available
- Super-fast internet and wifi throughout
- Large social space, games area and study spaces
- Communal kitchen space for students
- 24/7 security

Two main accommodation locations for International Students:

Gorgie: 543 Gorgie Road Edinburgh EH11 3AR

Westfield: 24 Westfield Road Edinburgh EH11 2QB

Speciality

Pathways Available: International Stage One, International Stage Two

Additional information

Degree Overview

Combining three of the most sought-after streams of computing, this course capitalises on the rising awareness of the importance of network security and is a valuable foundation to a successful and well-paid career.

Two years of general computing studies will lead you to the specialty areas of security and forensics, software development and computer networks. After four years, you'll have the expertise needed to create and analyse effective and secure computer systems. In the computing career market, the demand for security engineers is increasing. As a graduate, you'll have the wide range of skills plus the specialised expertise in data security needed to move into a variety of roles.

This course will provide you with the knowledge and skills required to pursue a career in a computing-related field, which will allow the application of security and digital forensics expertise. You will be taught the principles of security and digital forensics, using specialist software and equipment. During your studies you will gain the ability to apply professional standards to the analysis, design, testing, evaluation and modification of reliable and maintainable software. In addition, you will be able to develop critical, analytical and problem solving skills in relation to computing issues.
