Additional information

Your studies at a glance

With the integrated vocational training to become a tax clerk, we go beyond the classic dual study programme - bachelor's degree + vocational school + practice partner! In the dual course of study with us at the University of Europe for Applied Sciences, in addition to business and economics knowledge, you will receive practical professional qualification with a focus on taxes, law and auditing, which you will implement 1:1 during your practical phases in tax offices. The basis modules such as HR and organisation, marketing and business mathematics are part of the core training that you will go through as part of this course. In the 6th and 7th semester you will have the opportunity to gain a thorough understanding of complex relationships in the field of taxes, auditing and law using various case studies. Business English classes, which you receive in the first three semesters, prepare you for a career with an international focus. Get a German dual degree in Business & Tax in record time:

two qualifications (Bachelor of Science and tax specialist) in just four years

Become a tax expert

The dual degree BSc Business & Tax combines the advantages of an equally practical and academic training and opens up a wide range of career prospects for graduates. Companies have the opportunity to directly recruit qualified junior staff, who are introduced to challenging work-related tasks during their training.

The University of Europe for Applied Sciences offers you a dual course of study in German language in which you obtain a state-recognised professional (tax specialist) and academic (Bachelor of Science) qualification in record time of four years.
