Speciality

Pathways Available: Pre-Master's

15 months : 3 months pathway + 1 year degree

International College Dundee

If you do not meet our academic grade requirements for your chosen course, we can offer you an alternative route to begin your studies. Our international incorporated degrees will develop your subject knowledge, academic English and university level study skills.

Tuition fees for International students will increase by no more than 5% per year for the length of your course.

Additional information

Degree Overview

You'll study advanced robotics, learning about multi-modal sensor integration and human-robot interactions. You'll also study advanced manufacturing, investigating modern and smart manufacturing technologies.

Alongside the engineering modules, you will learn about digital marketing concepts and theories. You'll develop extensive knowledge in social media marketing, digital marketing, content generation, digital tracking, and data analysis. You will understand the practical side of various marketing tools and learn the pros and cons of each.

Alongside the engineering modules, you'll gain knowledge of entrepreneurship in a global context. You'll gain a strong understanding of the key components of a business start-up. This includes how to start a business, people management, and innovative project development.

Our research and teaching collaborations include a partnership with CERN (large hadron collider). This provides opportunities for industrial placements, PhDs and graduate positions.
