University of Kent

Computer Science - Cyber Security

Study details

Course type: Bachelor's degree

Degree: BSc (Hons) Computer Science - Cyber Security

Study mode: Full time Duration: 36 Month

Cost of study

Cost: 23 500 EUR Reg. fee: N/A EUR

Scolarship:

Insurance: N/A EUR

Intake/s

Jan/Sep

Requirements

GCE/GCSE

The minimum requirements are:

- five passes at GCSE grade C (or grade 4) or above, including English Language or Use of English (IGCSE English as a Second Language, grade B or grade 6), and at least two subjects at A level OR
- three passes at GCE A level and a pass at grade C (or grade 4) or above in GCSE English Language or Use of English.

Offers are normally based on achieving three A levels or equivalent at Level 3, although some University subject areas may specify differently. You must have a minimum of two A level equivalents at Level 3 in two subjects (ie two A levels or one vocational double award).

We base offers on a combination of GCSE/AS/VCE A level/A level/other qualifications or predicted grades, your personal statement and reference.

See our GCSE conversion table to understand how A* to C grades are matched with the numerical system.

Other qualifications

Mobile: +995 596 96 11 22

Study Abroad Consultant Hub

We are happy to consider other qualifications on a case-by-case basis, including the following qualifications, providing they demonstrate a satisfactory standard and include a pass in English at the equivalent of GCSE:

- Scottish (SQA) higher/advanced higher qualifications
- Irish Leaving Certificate
- European Baccalaureate Diploma
- Certificate in Education
- · university degree
- Advanced International Certificate of Education
- Advanced Placement (AP) a minimum of two full APs is required
- Overseas certificates (including some other European Union (EU) countries)
- Higher School Certificate of Matriculation of approved overseas and EU authorities
- American High School Diplomas if accompanied by two full AP passes
- School Certificates and Higher School Certificates awarded by a body approved by the University
- matriculation from an approved university, with a pass in English Language at GCSE/O level or an equivalent level in an approved English language test
- Kent's foundation programmes, provided you meet the subject requirements for the degree course you intend to study

Subjects accepted for the General Entry Requirement

- Kent generally accepts any A level syllabus approved by the AQA, OCR, WJEC and Edexcel and CIE awarding bodies, though we regard some subjects as more suitable than others.
- We do not accept the more vocational subjects if offered as one of only two A level passes.
- We count subjects with a significant overlap as one subject.
- We may accept two mathematical subjects at the same level provided that the course syllabuses were substantially different (for example, a combination of Pure and Applied Mathematics or of Mathematics and Further Mathematics). We will accept papers in Mathematics and Further Mathematics set on the SMP syllabus. A level 'Use of Mathematics' is not accepted by some degree subjects as meeting requirements for a specific grade in A level Mathematics.
- Some academic schools may take into consideration passes in Level 2 functional skills communication and numeracy where you cannot meet the matriculation requirements for English and Maths at GCSE level. However, you are advised to try to retake GCSE English and Mathematics as these will provide a better preparation for studying at university.

English Language Requirements

Level CEFR IELTS Equivalent

Good B2 6.0 with a minimum of 5.5 in each component

Very Good B2 6.5 with a minimum of 5.5 in each component

Excellent C1 7.0 with a minimum of 7.0 in each component

- Wi-Fi and utility bills included
- Free membership to Kent Sport
- 24/7 security and support
- UoK is partnered with UniKitOut for students essentials

Speciality

Pathways Available: International Foundation Year

Additional information

Degree Overview

Computer Science is an exciting and rapidly evolving subject that affects every area of our lives. A deep understanding of computing puts you in a great position to influence the future as well as opening up excellent employment prospects and well-paid careers. You learn the fundamentals of computer science with a focus in your final year on cyber security.

You learn to code in several languages, starting with the Java programming language, which is widely used in industry across a range of applications including mobile devices.

With cyber security as your focus, you take compulsory modules throughout your course and in your final year can choose from a range of optional modules. This degree opens career options in the commercial and public sector as well as research.

You can also gain experience in teaching with our Computing in the Classroom module. This gives you the opportunity to apply your knowledge in a school setting.
