International College Dundee

If you do not meet our academic grade requirements for your chosen course, we can offer you an alternative route to begin your studies. Our international incorporated degrees will develop your subject knowledge, academic English and university level study skills.

Tuition fees for International students will increase by no more than 5% per year for the length of your course.

Additional information

Degree Overview

If you have graduated from a non-computing subject and are looking to enhance your computing skills while gaining a knowledge of the global business environment, then this is the course for you.

This course offers a practical mix of technical computing modules, such as software engineering and technology innovation management, along with business modules, such as international business strategy and principles of marketing practice, allowing you to shape your study to fit your chosen path.

Our regular seminars and guest speakers allow you to learn from those working within the industry, increasing your understanding of real life situations you could face in your career.

You will also have access to a range of conventional and specialised equipment and software, such as Windows Azure, Teradata and Tableau, helping to further develop your skills and understanding.
