## Additional information

## Degree Overview

A highly practical programme designed to equip you with the right tools for the job market when you graduate.

This course will give you the opportunity to explore how organisations compete and cooperate in today's fast-paced and increasingly interconnected global market. The degree focuses on organisational activity and the supporting regulatory, legislative and political environments that help facilitate trade between companies and across international boundaries.

With the help of our academic expertise, you will be able to master the fundamental principles of business and delve into the complexities of trading overseas with a range of specialist modules, including Global Business Environment, Performance Measurement in Organisations, International Developments in Accounting, and Crisis and Business Continuity Management.

On this course you can either study a general pathway, giving you the skills, you need to understand what makes a business work, or you can specialise depending on your area of interest.

## Study Reasons

DMU lecturers draw on their extensive experience and many are involved in consultancy and training with large organisations in the private and public sectors, ensuring teaching is relevant to industry.

DMU Works team offer support to help you gain the skills and qualities that today's employers are looking for through placement opportunities with local, national and global companies previous students have secured roles at Rolls Royce, IBM, Walt Disney, the NHS and Siemens.

Employers are now looking for graduates who possess the types of enterprising skills and attitudes taught on this course, enabling them to be successful across a range of different environments and contexts.
