Note: This table shows full cost for two semesters before any aid is applied

Speciality

IMPORTANT REMINDER: Out-of-State and International students must pay \$420.00 PER UNIT in addition to the tuition fees appropriate to their academic level.

Some other documents we may need for your application:

- If it has been more than 1 year since you graduated from high school, submit the Gap in Attendance Form
- If you are a US permanent resident, please submit a copy of your green card. If you have an immigration status other than F-1, you may be asked to submit additional documents to verify your status.
- If you completed any of the following exams: Advanced Placement (AP), College Level Examination Program (CLEP), International Baccalaureate (IB) Diploma Higher Level, you may be eligible to receive additional college credit. Official exam scores will be required to award transfer credit. Visit the Standardized External Examinations page for more information.
- If you are an official partner-agent with San Francisco State University, submit the Student Consent for Release of Information form.

Pathways Available - International Year One

Additional information

Degree Overview

- Perform basic chemistry laboratory procedures, including the use of modern instrumentation, for the synthesis, separation, isolation, analysis, and characterization of molecules.
- Demonstrate the retention and synthesis of prior learning in advanced classes. Search the chemical literature for published work relevant to a project of interest, read and understand technical literature related to the discipline.
- Draw on classroom knowledge to contribute to solutions to problems encountered in a laboratory.
- Articulate an understanding of the relationship between chemistry and related disciplines such as biological science, materials science, and environmental science.

Study Reasons

Contribute to solving problems encountered in chemistry as part of a team.

Understand the key experiments that led to the development of chemical theories and models.

Effectively communicate the results of scientific experiments in oral reports, technical graphics, and written reports.
