Two main accommodation locations for International Students:

Gorgie: 543 Gorgie Road Edinburgh EH11 3AR

Westfield: 24 Westfield Road Edinburgh EH11 2QB

Speciality

Pathways Available: International Stage One

Additional information

Degree Overview

This user experience design course will develop your skills in identifying unmet needs and defining them by incorporating them into the process of design. This course will ingrain web user experience design principles into our students and prepare them for a career in the industry. If you have an

insatiable curiosity to speculate on the future and understand people's experience as they interact with devices and systems – then this course is for you!

During your studies, you will develop an impressive portfolio of work that you can easily use for applying to a broad range of user experience jobs. At the beginning of the course you will gain an introduction to computing, design and human-computer interaction. You will then learn about user experience (UX) for different domains, including mobile applications, physical computing and the web.

In years three and four, you will further develop your skills in designing and evaluating ubiquitous systems, user experience and creative technologies.
