IY0 (Science)

Additional information

Degree Overview

Our Forensic Science degree is the ideal opportunity to experience real-life forensic science. Explore an exciting discipline in our new crime scene facility, with a purpose-built vehicle examination garage and modern lab spaces. Conduct your research in our decomposition and entomology facilities. Let us guide you through practical crime scenes and mass disaster scenarios or try out your Disaster Victim Identification skills in our mock mortuary. You'll be taught by industry experts with years of hands-on practical experience. You'll work alongside experts from Kent Fire Brigade, the Metropolitan and Kent Police Services as well as Counter Terrorism, UKDVI and the Natural History Museum to put your learning into practice. This degree is accredited by the Chartered Society of Forensic Sciences, and you'll receive free membership throughout your studies. Whether your passion is for homicide investigation, blood pattern analysis, molecular biology, fingerprints, toxicology, ballistics or beyond, our Forensic Science course gives you a head-start in your future career. Gain the scientific training and transferable skills you need to become a professional scientist.

Study Reasons

- We offer specialist forensic provision, outstanding laboratory and crime scene facilities
- On this degree you'll focus on real-life clinical case studies to enhance your understanding
- This course will prepare you for employment in both the public and private healthcare sectors, including in the National Health Service, National Blood Service, Health Protection Agency and Medical Research Council, veterinary service, the Health and Safety Executive, forensic laboratories and the pharmaceutical industry.
