#### Additional information

## Degree Overview

Engineering modules on this course include manufacturing systems, computer-aided design and engineering mathematics. You'll also have modules with a business focus cover subjects such as strategic management, and accounting, finance and business planning. The university of Greenwich close ties with businesses such as BAE Systems, Southeastern railways and Ford help to keep our degrees relevant to current industry needs. The course is accredited by the Institution of Engineering and Technology on behalf of the Engineering Council, making it ideal for aspiring professional engineers.

## Study Reasons

- Get the chance to benefit from our 3000sqm of specialist labs, including telecoms, power, control and robotics labs
- The opportunity to gain experience from our close industrial ties with companies such as BAe Systems, South Eastern Railways and Ford
