- Free Wi-Fi
- Communal kitchen
- BBQ facilities
- Pool tables
- Basketball court
- Television room
- Laundry
- Off-street parking.

Speciality

There aren't any pathways available

Additional information

Degree Overview

At the University of Notre Dame Australia, we are dedicated to delivering a high-quality, ethical, and practical education that will prepare our graduates for a successful career in the sports and recreation industry. During this three-year degree, you will develop essential skills and knowledge in accounting, marketing, management and communication. In addition, you will also specialise in sport and recreation-specific content such as Events Management, Physical Activity and Health, Psycho-social Aspects of Sport and Physical Activity and The Australian Sports System.

This program is designed to give you the skills to manage recreation and sporting organisations and staff and to adapt and thrive in rapid and pervasive economic, social and technological change environments. You will also learn how to manage individual sporting and recreational agendas and, more broadly, oversee the community's sports and recreational facilities and resources.

Upon graduation, you will have the skills necessary for a management position in the sport and recreation sector – initially at the operational level and progressing through to senior management positions. This means you can work in various industries and areas, including player and recreation centre management, professional sporting clubs, sporting and recreation associations, and various government departments dealing with health and recreation.

Study Reasons

- Graduate job-ready with industry-specific skills and knowledge
- Benefit from a unique, personalised approach to education and pastoral care
- Lecturers are industry professionals and leaders in their field
