Course Details

Corporate Social Responsibility plays a vital role in identifying the excesses and exploitative behaviours that can result when firms take advantage of modern globalisation. It also provides solutions. This course focuses on the important themes of environmental social governance, socially responsible investment, sustainable value, and climate governance. It encourages you to think like a professional and requires you to challenge the usefulness of regulation in the context of CSR. The course is focused on problem-solving and will set you up for employment within the corporate governance field specialising in corporate social responsibility and sustainability. It will also assist you if you already work within this sector in taking on a more senior role.

When you study the LLM Corporate Social Responsibility and Sustainability with us you will:

- **Be taught by our expert lecturers**, including subject matter specialists, former and current practitioners, and research and teaching focused academics.
- **Benefit from strategic partnerships** with firms, regulators and accreditation bodies, which inform our programme development.
- **Improve your employability** by gaining important transferable skills and mapping your career with our careers team.
- **Strengthen your network** - connect with other students, faculty and industry professionals on an international scale, and seek out opportunities for future placements and job opportunities.
