Additional information

Degree Overview

If you are interested in the care and education of young children, this nationally recognised double degree is a perfect choice. The Bachelor of Education (Early Childhood & Care 0-8 years)/Bachelor of Behavioural Science degree will equip you with the knowledge and skills to advance your education career.

The Bachelor of Behavioural Science component will provide opportunities to work with marginalised children or adults. Notre Dame University Australia graduates are in high demand in the early childhood workplace.

The Bachelor of Education (Early Childhood & Care 0-8 years) degree combines educational theory and classroom learning with an integral practical component. At the same time, the Bachelor of Behavioural Science degree will develop your specialised knowledge and academic standing.

When you study at Notre Dame University Australia, you will be inspired by our innovative approach to teaching and learning with the latest in learning technologies. Our double degree will provide you with the academic skills you need to support, engage, and extend primary-aged children by integrating theory and practice.

The Education component covers traditional subjects such as English, Mathematics, and Humanities courses in Play and Pedagogy. In addition, you will carry out the essential practical component of 32 weeks in various childcare and classroom settings. A unique feature is that this practicum experience counts towards your degree.

The Bachelor of Behavioural Science component will allow you to study critical psychology, political science, cultural studies, and sociology. Behavioural sciences forge connections between traditional psychology and social work while promoting respect for social and cultural diversity. Get in touch today to enrol
